

Power Steering Fluid

SAMS1 Power Steering Fluid is a premium blended formula that helps maintain efficiency, performance and the condition of power steering units. SAMS1 Power Steering Fluid is blended with a high quality base oil and an advanced additive package to provide oxidation stability, anti-foam, and seal/hose compatibility to help prevent leakage and squealing even under severe conditions. SAMS1 Power Steering Fluid maintains year-round performance in high and low temperature conditions and is suitable for a wide range of passenger car and light truck power steering systems.

Benefits and Applications

- Protects power steering system against wear
- Resists foaming, oxidation, corrosion and rust
- Stops power steering squeaks
- Mixes with all power steering fluids
- Blended from high quality base oils and a balanced additive package
- Suitable for passenger car and light truck power steering systems
- Helps prevent high-temperature steering fade
- Maintains performance in high and low temperature conditions

Typical Characteristics - Power Steering Fluid

Specific Gravity	ASTM D-287	0.874
API Gravity	ASTM D287	30.3
Flash Point, COC °C/°F	ASTM D92	365(185)
Pour Point, °C/°F	ASTM D97	-40(-40)
Viscosity @ 40°C, cSt	ASTM D445	37.3
Viscosity @ 100°C, cSt	ASTM D445	7.1
Viscosity Index	ASTM D2270	155

Test Method ASTM - Typical test data are average values only. Minor variations, which do not affect performance, may occur.
